SECTION 01 / ABOUT THE COMPANY

A services-first HVAC&R practice.

Hitech Refrigeration Services Pvt. Ltd. is, first, a services company: installation, commissioning, AMC and breakdown maintenance for cooling systems where uptime, product temperature and guest comfort each carry different operating stakes.

We operate a branch-backed network across Kerala, scoping work on a documented bill of materials, executing it with trained crews and standing behind it with manufacturer-warranty coordination and structured AMC plans.

Secondarily, HRS is an authorised **sales, service & distribution (SSD)** partner for the major HVAC and refrigeration brands operating in India. We select the right tool for the brief, not the one most convenient to push.

25 years of cooling engineering across residential, commercial & cold-chain. EST. 2000

ENTITY	Hitech Refrigeration Services Pvt. Ltd.

Government & Institutional 05	Industrial & Process 06	QSR & F&B 07	Residential & Apartments 08

SECTION 02 / AUTHORISED PARTNERSHIPS

Sales, service & distribution — backed by the brands that **set the standard.**

HRS is an authorised SSD partner for the leading HVAC and refrigeration manufacturers operating in India. Brand alignment lets us deliver scoped warranty service, genuine spares and engineering support and lets buyers choose by load profile rather than by what is on the shelf.

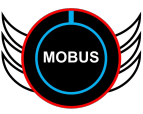

COMFORT COOLING · RESIDENTIAL & COMMERCIAL HVAC

SECTION 03 / SEVEN SERVICE DIVISIONS

What we do.

Seven service divisions, one operating standard. Every project is scoped on a documented bill of materials, executed by trained crews, commissioned with a handover report and supported through structured AMC and emergency response.

01 / Residential D 01

Residential Air Conditioning

Selection, installation, replacement and warranty service for split, cassette and ductable AC across homes, villas and apartments.

02 / Commercial D 02

Commercial & Corporate HVAC

Project HVAC for offices, banks, retail, healthcare, hospitality and institutional facilities, from design through commissioning.

03 / Critical D 03

Precision Cooling & Server Rooms

Authorised Schneider Electric precision cooling partner. Close-control CRAC, server-room reliability and 24x7 maintenance.

04 / Air Movement D 04

Custom Ducting & Ventilation Systems

Ducting fabrication, fresh-air, kitchen exhaust and ventilation for offices, hospitals, kitchens, retail and industrial sites.

05 / Cold Chain D 05

Cold Rooms & Industrial Refrigeration

Cold rooms, walk-in coolers, freezer rooms, PUF panel builds and industrial refrigeration for food, pharma and process cooling.

06 / Transit D 06

Bus Air Conditioning Systems

Bus AC installation, retrofit and fleet maintenance for private operators, staff transport and government fleets.

07 / Mobile Cold Chain D 07

Transport Refrigeration & Body Fabrication

TRU installation, commissioning, maintenance and breakdown service across Kerala, plus GRP-insulated truck body fabrication for Thermo King, Carrier Transicold, Daikin Zanotti, SuperSnow and Ice Make builds.

+ AMC

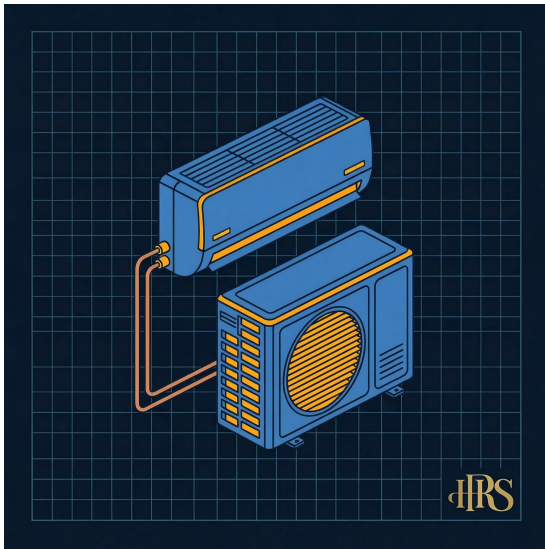

A STANDALONE SERVICE HIGHLIGHT, NOT BURIED.

SEE PAGE 08

DIVISION 01

Residential Air Conditioning.

Right-sized AC selection, professional installation, replacement and warranty service for homes, villas and apartments, with documented commissioning and AMC handover.

- Hi-wall inverter splits, cassette and concealed ductable
- Site survey, heat-load match and right-sizing
- Manufacturer warranty registration & coordination
- Out-of-warranty repair on chargeable basis
- Express response for emergency service tickets

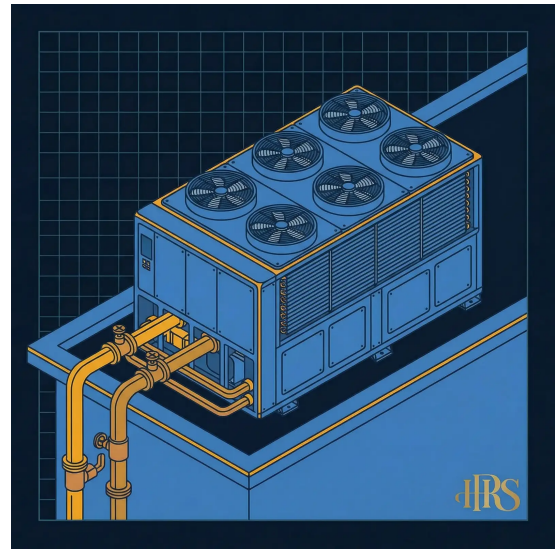

BRAND ALIGNMENT

Daikin · LG · Carrier · Toshiba · Midea · Godrej

DIVISION 02

Commercial & Corporate HVAC.

Project HVAC for buyers where comfort cooling and operating uptime each have weight. Design and selection through installation, commissioning and post-handover service.

- VRF / VRV multi-zone systems for offices & institutions
- Ductable, AHU, FCU, ceiling-suspended and cassette units
- Rate-contract execution for branch networks & chains
- Commissioning report, BMS integration on request
- Energy optimisation reviews for operating facilities

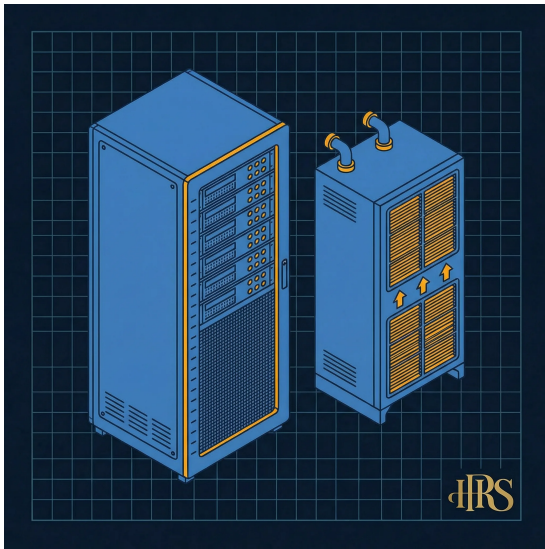

SECTORS

Banks · Healthcare · Retail · Hospitality · Institutional

DIVISION 03

Precision Cooling & Server Rooms.

Authorised Schneider Electric precision cooling service partner in Kerala. Close-control cooling and 24x7 maintenance for server rooms, data centres, telecom and other critical environments.

- Schneider Electric authorised PC service partner
- Close-control CRAC, in-row and ceiling-suspended units
- 24x7 reliability response & SLA-backed maintenance
- Temperature, RH and uptime monitoring on request
- Coordination with UPS & data-centre infrastructure

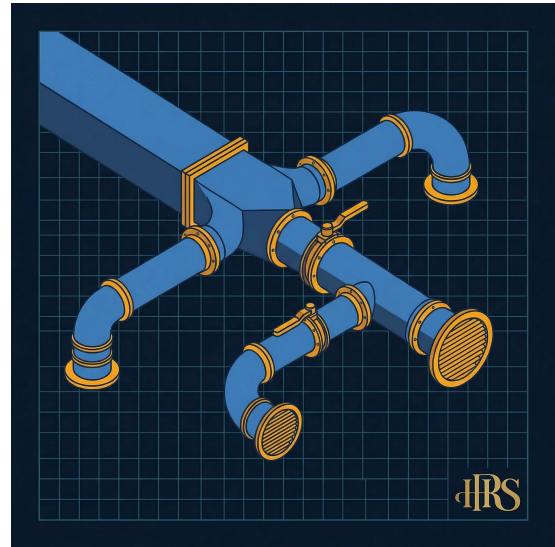

BRAND ALIGNMENT

Schneider Electric · authorised precision cooling partner

DIVISION 04

Custom Ducting & Ventilation.

Sheet-metal fabrication, ducting installation, fresh-air systems, kitchen exhaust and industrial ventilation, built to spec, sized to load and commissioned on site.

- GI & PI ducting fabrication, on-site or workshop
- Professional kitchen exhaust hoods & grease ducting
- Fresh-air handling units & positive-pressure systems
- Industrial ventilation & fume extraction
- Insulation, dampers, grilles, diffusers · full spec

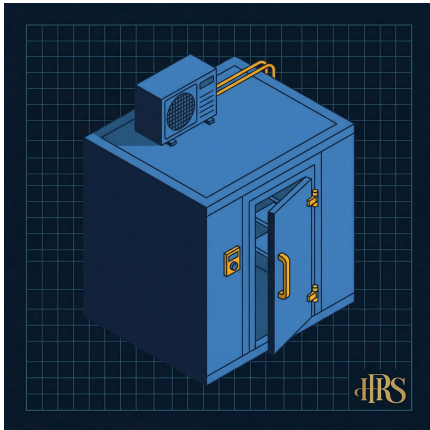

APPLICATIONS

Kitchens · Hospitals · Retail · Industrial · Cleanrooms

DIVISION 05

Cold Rooms & Industrial Refrigeration.

Cold rooms, freezer rooms, walk-in coolers and industrial refrigeration plants for food, pharma, hospitality and process cooling.

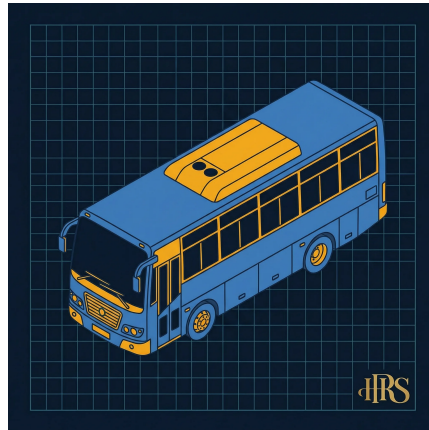

- PUF panel cold & freezer rooms
- Walk-in & reach-in coolers
- Condensing units & evaporators
- Process & pharma refrigeration

DIVISION 06

Bus Air Conditioning Systems.

AC installation, retrofit and fleet maintenance for private operators, staff transport, school fleets and government bus operations.

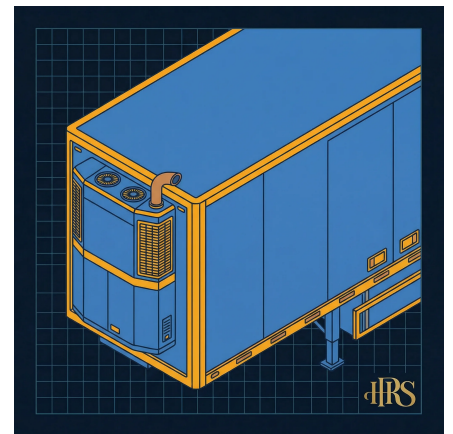

- Roof-mounted & under-floor units
- Split & inverter retrofit
- Standby diesel units
- Fleet AMC & breakdown response

DIVISION 07

Transport Refrigeration & Body Build.

TRU installation, commissioning, maintenance and breakdown service, plus GRP-insulated truck body fabrication for cold-chain logistics.

- Diesel · electric · hybrid · cryogenic TRUs
- GRP insulated body fabrication
- Sliding strip curtains & doors
- Reefer controllers & data loggers

Bus & Reefer Division operates from our dedicated Kalamassery branch at Plot 79, Major Industrial Area, Carborundum Road.

STANDALONE HIGHLIGHT

AMC. The reason a system stays cooling.

Annual Maintenance Contracts are the difference between buying a cooling system and operating one. HRS runs structured AMC plans with documented preventive cycles, priority response and three clear coverage tiers for residential, commercial and institutional buyers across Kerala.

Essential AMC · 01

TIER I · PREVENTIVE

- + Two preventive visits per year
- + Filter cleaning & coil wash
- + Operational checks & reporting
- + Standard response window
- + Spares billed separately

MOST CHOSEN

Comprehensive

TIER II · PM + REPAIR

- + Four preventive visits per year
- + Coil wash + gas top-up included
- + Major repairs covered (T&Cs)
- + Priority response window
- + Genuine OEM spares

Critical AMC · 03

TIER III · 24x7

- + Round-the-clock coverage
- + SLA-backed response time
- + For server rooms & cold chain
- + Full parts & labour included
- + Dedicated account engineer

WHY AMC IS NOT OPTIONAL

A scoped AMC pays for itself the first time the system would have failed.

AMC moves cooling from "react to breakdown" to "design out the breakdown". Preventive cycles, filter discipline, gas-charge checks and crew familiarity with the asset reduce both downtime and cost-per-incident across the contract life.

- Reduces breakdown risk on critical loads
- Extends equipment life beyond OEM warranty
- Predictable opex, no surprise repair bills
- Documented service log per asset
- Express response upgrade on any tier

SECTION 04 / GET IN TOUCH

Talk to HRS.

Service requests, AMC quotes, project enquiries or general support. We route enquiries to the right division instead of treating every requirement like the same local call.
